Distributed Management for Payroll and Human Resources Employee Self Service

DPSI
*YOUR INTERNET PAYROLL SOLUTION* ™

A national payroll team with the local personal touch!

DPSI's Internet technology allows your organization to manage your Payroll and Human Resource data the way you manage your Payroll and Human Departments. DPSI's paperless approach eliminates the mounds of paperwork passing between your Payroll and Human Resource Departments and your Employees. DPSI's centralized Payroll and Human Resource database allows you to put information at the fingertips of those who need it!

Organizing your Payroll and Human Resource Data Management

Using DPSI's Internet-based applications, your Payroll and Human Resource information can be shared real-time without regard to physical location. You decide whether your Payroll application is centralized at Corporate or decentralized out to remote locations. You also determine the level of data management you deploy to each location. It might be payroll entry and employee maintenance. It might be access to management reporting; or you may choose to deploy the entire payroll process!
